

The Capital Removal Bill was defeated. Let it rost in peace.

There are now just 94,000 miles of railway in the United States. 7,506 miles were made last year.

There are 9,000,000 voters and 50,- ye have not unto to me," 000,000 people in the Umon, or 51-2 people to every voter. The population increases but 2 million a year, 166,000 per month or 5,500 per day.

Our Congressman, Ford, has the credit of having suggested a bill in the House that ifpassed will give the whole people more satisfaction than all the legislation since the war-It is known as Ford's Postal Telegraph Bill.

Although St. Louis is so much nearer to Northwest Missouri than Cincinpati. yet the Cincinnati papers arrive here regularly at the same time as the St. Louis. So also do the Chicago papers. In nothing does St. Louis show inferior energy more than in that. Morning papers published over 300 miles farther off even outstrip her in getting here as do the Chicago.

Worth Trying.

Some fifteen years ago a farmer while putting down a couple of large oak gate posts, bored a six inch deep auger hole in the tops, filled them with salt and tightly plugged them up. To-day these posts above and below ground are as solid and free from rot of any kind as though just put down. Try it.

Grand Surgical Trtumph.

The grandest operation in surgery was performed lately at Vienna, Austris. A cancer was cut out of the stomach of a woman, who recovered and is doing well, "Re-section of the stomach is now one of the facts of surgery, as they say." It has succeeded in several cases. The lower part of the stomach is cut away and the remainder is attached to the etrail and healed to it.

MINERAL LANDS FOR SALE

A Chance for Speculators,

To an intelligent and honest man who will take hold of and develop the property, an undivided interest is offered for sale in four hundred and flity-five acres of mineral land, located in Washingon county, Mo., about sixty miles from St. Louis and about fifteen miles from the Iron Mountain Railroad. This from the Iron Mountain Railroad. This land is only three miles from the celebrated Palmer Lead Mines, and is on the same ridge with them. below them. The former State Geologist says that the same vein of ore which is found in the Palmer Lead Mines undoubtedly lays under this land; and compotent judges pronounce it one of the most valuable tracts of mineral lead in the State. The owner is so confident that a fortune is there, seventy or eighty feet from the surface, ready to be taking out, that he will not dispose of his entire interest in any portion of it; but if he can find a perfectly houest and energutic man, who will go there and sink shafts and thus find out the amount, quality, size of HOUSEHOLD will go there and sink shafts and thus find out the amount, quality, size of vein, etc. of the lead ore, he will sell as undivided interest or will trade an undivided interest for unencumbered property in nerthwest Missouri. For further information apply to the editor to THE COUNTY PAPER.
